- » Humberto Ramos made a motion to approve Consent Agenda Items.
- » Ted Gibbs seconded the motion.
- » President Timothy Fousse called or a vote. The motion passed with 16 ayes.

Item 8 PRESENTATIONS/DISCUSSIONS

- A. Armstrong, Vaughn & Associates, P.C. will present the FY2023 Audit and their report thereon.
- B. The Board of Trustees will discuss the December 15, 2023, notice letter from counsel for Martindale Water Supply Corporation concerning alleged "failure [of CRWA] to perform its responsibilities under the terms of" the Amended and Restated Regional (Hays/Caldwell Counties Area) Water Supply and Treatment Contract, dated February 9, 2021, and intent to withhold certain sums from expenses billed by CRWA under the Contract.
- C. The President of the Board of Trustees will appoint the members of the CRWA General Manager Search Committee.
- D. The President of the Board of Trustees will appoint the members of the CRWA General Counsel Statement of Qualifications Review Committee.
- » Phil Vaughn with Armstrong, Vaughn & Associates, P.C. gave a presentation discussing the FY 2023 Audit and an overview of how Canyon Regional Water Authority did compared to its FY 2023 Budget.
- » Letter From Martindale WSC: Trey Wilson gave a description of the letter received by Canyon Regional Water Authority from Martindale Water Supply Corporation. The letter from Martindale WSC is in response to a letter that was sent on August 15, 2023, by Martindale WSC, that did not receive a response from CRWA. Martindale states that CRWA is in violation of its responsibilities under the Amended and Restated Regional (Hays/Caldwell Counties Area) Water supply and Treatment Contract. Martindale WSC states that if CRWA does not act, Martindale WSC will withhold from its monthly payments of the billing from CRWA for the operation and maintenance of the Hays/Caldwell Facility.
- » <u>CRWA General Manager Search Committee:</u> President Fousse appointed himself, Vice President Brandon Rohan, Steve Cooper, Tracy Scheel, Martin Poore, and Regina Franke to be on the General Manager Search Committee.
- » <u>CRWA General Counsel SOQ Review Committee:</u> President Fousse appointed Clint Ellis (Chairman of the Committee), Doris Steubing, James Forssell, and Abigaile Maberry.

Trey -

At the last CRWA Board of Trustee's meeting on January 8, 2024, the CRWA board rejected the effort by some of the Hays Caldwell Participating Members to impose a new charge (called an "overage charge" in CRWA Agenda Item 11.F.) not provided for in the February 9, 2021 Amended and Restated Hays Caldwell Project Contract ("Hays Caldwell Contract"). The CRWA board rejected the proposed resolution for the "overage" charge by a vote of 6 in favor and 9 opposed. Following that vote rejecting Agenda Item 11.F., my understanding was that the CRWA Board wanted the Hays Caldwell Participating Members (PMs) to attempt to seek compromise and resolution of the matter between themselves over the course of the next 60 days. Here is an update on that process from the perspective of counsel for Crystal Clear SUD.

First, counsel for the PMs, along with certain General Managers and Board Members from the PMs that favored adoption of the "overage" charge, attended a meeting hosted by Maxwell SUD on January 25th. The PMs and their counsel discussed numerous issues at the meeting, with some apparent broad agreement being made on the potential adoption of a new "System Capacity Fee" provided for in Exhibit A, Schedule I of the Hays Caldwell Contract.

As a potential compromise, counsel for CCSUD proposed the adoption of a new charge that would apply for usage above the 1.3 Peak Capacity identified in Exhibit A, Schedule 1 in the Hays Caldwell Contract. As currently stated, the Hays Caldwell Contract provides that, "Additional treated water, over the peaking GPD and up to the Maximum Capacity GPD, will be provided to the Participating Member without penalty..." (emphasis added). This concept was discussed at some length, but was neither accepted nor rejected, and was left open for future consideration. In the view of counsel for CCSUD, such a charge would change the payment terms of the Hays Caldwell Contract, which requires unanimous approval of all PMs under 9.06 of the Hays Caldwell Contract.

Second, CCSUD has again renewed its offer to lease treated water capacity rights from any PM has in the Hays Caldwell Project for a term of years. As has been frequently stated by CCSUD, this type of voluntary contractual arrangement has been used by CRWA members to re-allocate CRWA project allocations to the mutual benefit of the contracting parties, with CRWA approval. As an example of such a lease, CCSUD leased a portion of its excess capacity rights in the Well Ranch Project to the City of Cibolo, with approval by CRWA. The CCSUD - Cibolo lease is attached for your convenient reference. The other Hays Caldwell PMs appear to have excess capacity in the Hays Caldwell Project based on the fact that none of them have taken their

annual take-or-pay contract amounts, and are frequently far below their take-or-pay allocation.

Counsel for CCSUD has again renewed its offer to lease water rights capacity from the other PMs. To this point, none of the PMs have engaged in negotiations in response to this offer. CCSUD will provide a further update if its continued offer to lease water rights capacity makes progress toward a lease.

Third, CCSUD, through counsel, has offered to resolve the disputed interpretation of the Hays Caldwell Contract through a binding "fast-track" arbitration. The disagreement between the PMs turns on the interpretation of the Hays Caldwell Contract, and the implementation of that Contract by CRWA. CCSUD has plainly stated its views on the proper textual interpretation through its June 26, 2023 position statement (attached for convenient reference). CCSUD is not aware of any other PM providing a similar textual analysis and position statement of the Hays Caldwell Contract, but there are clearly disagreements regarding the proper interpretation of that agreement. Because those disputed interpretations are at the heart of the disagreement on the PMs' rights and obligations under the Contract, CCSUD has offered to participate in a binding private arbitration to obtain a ruling on the interpretation of the disputed provisions of the Hays Caldwell Contract.

Although CCSUD would prefer a voluntary, non-litigation approach to resolving the disagreement – whether through amendment of the Hays Caldwell Contract or through lease of water capacity rights in the Hays Caldwell Project – this approach could be used to resolve the disputed interpretation.

To summarize, CCSUD continues to pursue different paths toward resolution of this matter with the other PMs and remains open to the foregoing options and any other suggestions as well. It is CCSUD's strong desire to resolve this matter without any further involvement of the CRWA Board and Staff, except as may be needed to approve a contract amendment or water lease.

In an effort to keep communications streamlined, I am sending this to you and do not want to send a "mass" email to all of the CRWA Board of Trustees. Please feel free to share this communication with any of the Hays Caldwell PMs, and the other members of the CRWA Board of Trustees, or their respective staff and counsel. I am available for discussion on any of these issues.

We appreciate your assistance.

Sincerely - Paul Terrill

Re: Formal Request for CRWA's (1) Completion of Waterline and (2) Delivery of Contracted-For Water to County Line SUD

Dear Mr. Fousse, Mr. Rohan, Trustees, and Mr. Kaufman:

This request is time sensitive. It will require immediate discussion and action by CRWA's Board of Trustees. Current retail customer water demand and foreseeable, imminent increased demand have made it imperative that our client County Line Special Utility District ("County Line SUD") take immediate action to ensure uninterrupted retail water supply within its service area. In addition to rapid development and increasing water demand over the past decade, several circumstances have quickly evolved during 2023, primarily:

- (i) several developer commitments to pay for build-out and retail water service to 3,100+ new LUEs (living-unit equivalents); and
- (ii) Maxwell Special Utility District's August 9, 2023 six-month notice of intent to utilize the full capacity of Existing Transmission lines under Section 3.02 of the Water Transportation and Wheeling Agreement between Maxwell SUD and CRWA.

County Line SUD has for more than two decades met its commitment on the bond issuances that financed infrastructure that primarily benefited its other CRWA Hays-Caldwell member partners, with the expectation that a subsequent effort would be undertaken to complete the infrastructure contemplated to bring water to County Line SUD, Martindale WSC, and Maxwell SUD (including what has been referred to in recent Board packets as the HCWTP Improvements Project). Each month County Line SUD remits to CRWA a payment of about \$171,500 that includes its bond payments, a membrane fund payment, a line and use delivery charge, a raw water charge and an

Formal Request for Completion of Waterline and Delivery of Contracted-For Water August 31, 2023 Page 2

administrative fee based on the contracted-for amount of 1,308 acre feet, much of which CRWA cannot deliver to County Line SUD. <u>Time is now of the essence to launch the effort to bring the entire contracted-for volume of water to County Line SUD and its other Hays-Caldwell partners.</u>

We are encouraged that the wheels are in motion by the Board of Trustees' following approvals of engineering services at its August 14, 2023 meeting:

- (i) Gallegos Engineering to conduct alignment determination and related services on a transmission line to County Line SUD's point of delivery; and
- (ii) Ardurra Group to provide grant application services in support of the HCWTP Improvements Project.

We understand that there was a meeting over the past several days with Ardurra Group on a multi-task scope of work for membrane and other HCWTP and infrastructure improvements that would ultimately enable delivery of treated water to County Line SUD.

Although we are encouraged by these efforts, we remain very concerned that CRWA is not moving quickly enough to ensure that water comes on-line soon enough. As you know, in part to mitigate CRWA's inability to deliver County Line SUD's full contractual commitment now or in the immediate future, we entered a two-year contract for short-term water from the City of San Marcos that requires the expenditure of more than \$4.6 million for infrastructure, right of way, and raw water to be paid at the rate of \$5.82 per 1,000 gallons received with a 5% annual increase in this rate. On a related note, we look forward to continued discussions with CRWA, Crystal Clear SUD and our other member partners about equitable pricing for the water committed to Hays-Caldwell partners that CRWA cannot deliver. We will provide feedback on the draft memorandum of understanding intended to address this topic, which we received from Trey Wilson by email late yesterday afternoon.

On August 21, 2023, County Line SUD's Board of Directors was extensively briefed by its senior management, engineers and legal counsel on the implications of Maxwell SUD's notice, its arrangement with the City of San Marcos, the status of new retail customers coming on-line, and the above-referenced developments at CRWA. At this meeting our Board took formal action (1) directing our law firm to prepare and send this letter and (2) delegating authority to two Directors and the General Manager to monitor CRWA's response and to direct our firm to pursue all legal remedies under our CRWA agreements to secure CRWA's completion of the necessary infrastructure to deliver the entire contracted-for water supply to County Line SUD.

Formal Request for Completion of Waterline and Delivery of Contracted-For Water August 31, 2023 Page 3

There are bond-related implications to the current predicament. At the present time County Line SUD's leadership remains hopeful that CRWA and our member partners at CRWA will work closely and diligently to prioritize the obvious action items and accelerate the necessary timelines to move forward with the Hays-Caldwell improvements. Our Board will expect an update at its September 18th meeting. But please recognize the Board's action in August to take all necessary legal action to protect County Line SUD's ability to serve its retail customers.

We look forward to (i) immediate informal discussion and (ii) formal review and action by the Board of Trustees at its September 2023 meeting to accelerate timelines and commit to achievable completion of the HCWTP Improvements Project and related waterline buildout to deliver the entire contracted-for water to County Line SUD, particularly in light Maxwell SUD's own water-supply and infrastructure stresses and notice to terminate County Line SUD's capacity by February 2024.

Sincerely,

Michael A. Gershon

Subject: CRWA - County Line SUD - HC Project Pipeline (CRWA HC)

Mike:

Thanks again for taking the time to speak with me yesterday morning. Even though the steps were incremental, I do believe that we moved the ball forward yesterday.

My notes from our conversation reflect that you were going to supply me with some additional information as described below:

1) CLSUD's Point of Delivery for the contemplated pipeline. I understood you to say that the POD may be relocated from that currently set-forth in Schedule B of the 2021 Restated Agreement, which is:

Ground Storage Tank located at the intersection of High Road and N. Plum Creek Road

Obviously, the location of the POD may have huge cost implications. Please confirm CLSUD's anticipated POD for the contemplated pipeline.

- There was some uncertainty about CLSUD's position concerning whether CRWA (as a whole) should pay for the pipeline, or whether CLSUD contends that the HC participants should pay for the line. That clarification would be appreciated.
- We discussed the claim by CLSUD that it is unable to receive a quantity of water form CRWA. This position has been stated in various meetings and was articulated in your August 31, 2023 letter as follows: "...contracted-for amount of 1,308 acre feet, much of which CRWA cannot deliver to County Line SUD." As I understand things, CLSUD has never requested a quantity of water from CRWA and been denied such request. Please confirm whether or not my understanding is accurate.
- 4) It appears that CLSUD may have a quantity of allocated water from the HC Project that it is not using. Is this quantity potentially available to Crystal Clear SUD for short term lease? Based on yesterday's open forum conversation, it appears that there may be no mutually agreeable pricing terms between CLSUD and CCSUD, even if the water is available. Nevertheless, it is important to CRWA to understand whether water is an option for CCSUD (however undesirable).

Thank you again for your professionalism, and I look forward to working with you on addressing the significant challenges concerning the HC Project.

PROJECT STATUS REPORTS

PROJECT STATUS REPORT SUMMARY	
REPORT DATE	PREPARED BY
February 8, 2024	David Kneuper, P.E. – Utility Engineering Group

CRWA GIS SYSTEM STATUS SUMMARY

Since the last project status report to Canyon Regional Water Authority (CRWA), Utility Engineering Group (UEG) held a Geographic Information System (GIS) – Phase 4 review meeting with CRWA Staff on 1/9. Based on the review meeting, UEG will be adding three additional Hays Caldwell system as-builts to the site (the recent FM 758/Barbarosa improvements, Maxwell 12-Inch, and the original Hays/Caldwell pipeline). All three as-builts were provided to UEG by CRWA Staff on 1/25. In addition to the review meeting, the field verification kick-off meeting was held on 1/9. A follow-up meeting with CRWA Staff to hand off the GPS equipment was held on 1/31 with the initial data collection taking place the same day.

The project base scope of services is complete pending a final review and update meeting with CRWA Staff. The initial field verification portion of the project will be completed within eight weeks following the kick-off meeting. Currently \$61,382.50 (85%) of the initial Phase 4 budget (\$72,470) has been invoiced. No work on the field verification portion of the project has been invoiced to date. Presently, there are no current issues or associated risks with the project.

TXDOT/CRWA IH-10 (SANTA CLARA & ZUEHL) TRANSMISSION LINE ENCASEMENT STATUS SUMMARY

The project includes the addition of approximately 150 LF of steel split casing on the existing CRWA transmission main at Santa Clara Road and the relocation and encasement of approximately 200 LF of the transmission main at Zuehl Road. The project is required due to the reconstruction of the two intersections by the Texas Department of Transportation (TxDOT) with their IH-10 expansion project. With the TxDOT supplemental agreement executed and the updated project TxDOT RULIS permit approved, UEG is coordinating with the Contractor and TxDOT to schedule the project on-site pre-construction meeting which is anticipated in late February.

Since the last status report, the TxDOT supplemental agreement and Change Order No. 2 were approved by the Board of Trustee's. UEG also finalized the updated TxDOT RULIS permit.

Once the notice-to-proceed is issued, the contract documents give the contractor 120 calendar days to reach substantial completion. The contract amount is currently \$541,424.21, which includes the original bid and approved Change Order's No. 1 and No. 2, all of which are fully reimbursable. Presently, there are no current issues or associated risks with the project.

TXDOT/CRWA FM 1518 TRANSMISSION LINE RELOCATION STATUS SUMMARY

The project includes the offset and bore of a new section of 30-Inch CRWA transmission main, approximately 250 LF, across FM 1518 at the intersection with Lower Seguin Road. The project is required due to the TxDOT widening of FM 1518 and associated drainage improvements. The TxDOT standard utility agreement was approved by the Board of Trustees on 5/8/23 and executed by TxDOT on 5/16/23.

Since the last status report, a second TxDOT field pre-construction meeting was held on 2/6. The Notice-to-Proceed was issued to the Contractor on 2/6, with a project start date of 2/13. The Contractor plans on mobilizing to the site on 2/13 for material deliveries and erosion control installation. The Contractor anticipates breaking ground on or around 3/1. UEG has completed review of the Contractor submittals for the project.

With the Notice-to-Proceed issued for 2/13, the Contract Documents give the Contractor 120 calendar days to reach Substantial Completion (6/12). The Engineer's Opinion of Probable Project Cost was approximately \$757,050. The low bid from RAM Utilities, LLC is \$731,420.79. The project is not fully reimbursable, based on the approved Standard Utility Agreement with TxDOT, approximately \$146,430.22 (20.02%) would be reimbursable. Presently, there are no current issues or associated risks with the project.

WATER SYSTEM STANDARDS & TECHNICAL SPECIFICATIONS DEVELOPMENT STATUS SUMMARY

The project includes the preparation, review, and finalization of a new set of water system standards, technical specifications, and forms. The proposed water system standards are limited to CRWA's facilities related to the water transmission main system.

Since the last status report, UEG provided CRWA with a set of draft water system details on 8/22/23 for review. A draft water system details review meeting was held on 9/18/23. UEG received comments on the draft standard details on 2/7 from CRWA Staff. UEG is finalizing work on the draft water system technical specifications, with an anticipated submittal of the draft specifications and updated standard details to CRWA Staff in February.

Currently \$17,762.50 (72%) of the total project budget (\$24,760) has been invoiced. Presently, there are no current issues or associated risks with the project.

ANNUAL OVERAGE CHARGE PROCEDURE DEVELOPED BY NEWGEN STRATEGIES & SOLUTIONS, LLC

CRWA 23-11-078

INITIATED BY

DORIS STEUBING

STAFF RECOMMENDATION

Approve the annual overage charge procedure developed by NewGen Strategies & Solutions, LLC that shall be applied when the contractual annual allocation of treated water is exceeded by a participating member of the Hays Caldwell Amended and Restated Regional Water Supply and Treatment Contract, February 9, 2021.

BACKGROUND INFORMATION

This overage charge procedure was developed by NewGen Strategies & Solutions, LLC pursuant to CRWA Resolution No. 23-09-057.

The purpose of the overage charge procedure is to determine the fixed costs associated with a measured overage of the subscribed annual allocation of treated water in acre-feet, as defined in Exhibit A of the 2021 Hays Caldwell Contact. The calculation procedure is based on cost factors in the approved annual budget. CRWA's annual budget runs on a fiscal year that starts on October 1 and ends on September 30.

FINANCIAL IMPACT

There is no financial impact to CRWA.

MOTION

RESOLUTION No. 23-11-078
